Course Description: This course is a continuation from the Listening and Speaking 3 course to further improve and implement the use of English language in the areas of listening and speaking. Presentation of material followed up by practical exercises arranged from unit topics. The course is designed to improve the overall quality of students towards international talents. Students are expected to take an active role and be advocates in their own learning using their interests, life experiences and cognitive levels. Through practice, participation, cooperation and exchanges, students will develop the ability to use English comprehensively.					
Course Objectives:					
1. Knowledge and skills objectives: Students will be required to practice and develop their listening and speaking skills, focusing on pronunciation, intonation, vocabulary building and applying language in real-world situations.					
2. Process and method objectives: Students will experience the communicative approach to learning. Two periods each week will include the use of listening videos and audio files, discussions, activities and presentations related to textbook units.					
3. Emotional, attitudinal and value development objectives: Ultimately, the willingness to learn is up to the student. Cooperation with their classmates and their teacher is paramount to getting the best use out of the course. A cooperative learning approach encourages students to develop their team spirit, to build up their confidence in speaking English and to believe in themselves; independent learning activities develop students' self-planning, self-direction, self-regulation and self-control.
